Complete Zyme

A HIGH-END, MULTI-PURPOSE BLEND OF VEGETATIVE AND SPORE MICROORGANISMS, EFFECTIVE IN DEGRADING MANY TYPES OF WASTE

PERFORMANCE THAT WORKS!!

Complete Zyme is a versatile, advanced multi-strain range of powder formulations designed as cost-effective, ready-to-use treatments to manage degradation of different wastes within domestic and industrial wastewater treatment facilities.

Complete Zyme spore microorganisms and **ready-to-work** vegetative microbes are able to perform more effectively than the naturally occurring biomass. **Complete Zyme** ensures for rapid increase in the biomass for accelerated organic remediation including, but not limited to, BOD/COD removal, Fats, Oil & Grease (F.O.G.) **Complete Zyme** organisms out perform any product on the market today.

Complete Zyme

PERFORMANCE THAT IS ONLY SECOND TO THE COST OF USE!

Use **Complete Zyme** to:

- Reduce Sludge Build-up
- Control Grease, Foaming & Scum Formation
- Improve Settling
- Reduce Odors
- Produce an Excellent Effluent

Specifications:

- Bacterial Type: Bacillus Spore & Vegetative Microorganism Blend
- Bacterial Count: 5,000,000,000 cfu/gram
- Performance Properties: Effective pH range: 5.0-9.5
- Packaging: 25 pound Pail (100 x 4 oz Pouches)
